

AGILE BUSINESS INTELLIGENCE

Twelve Critical Steps to Success

Why Agile?

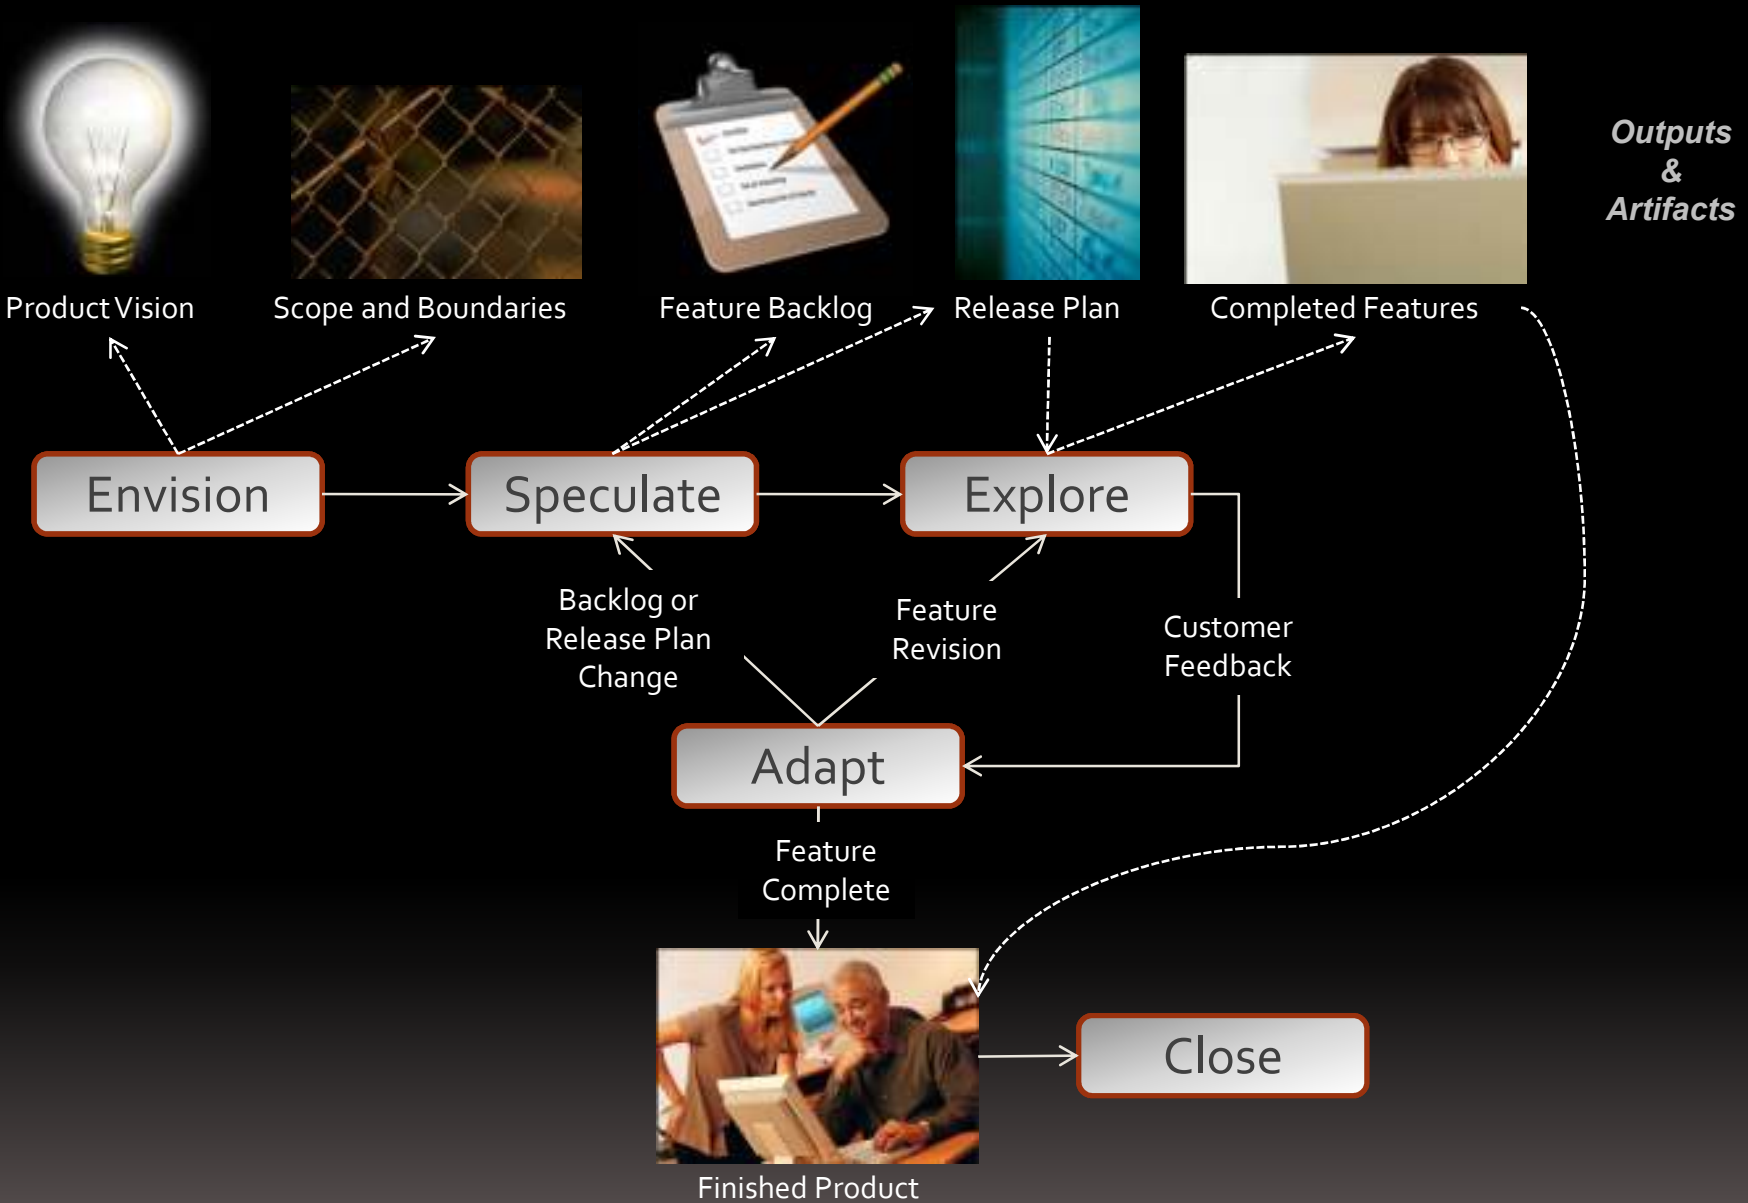

Efficiency

Responsiveness

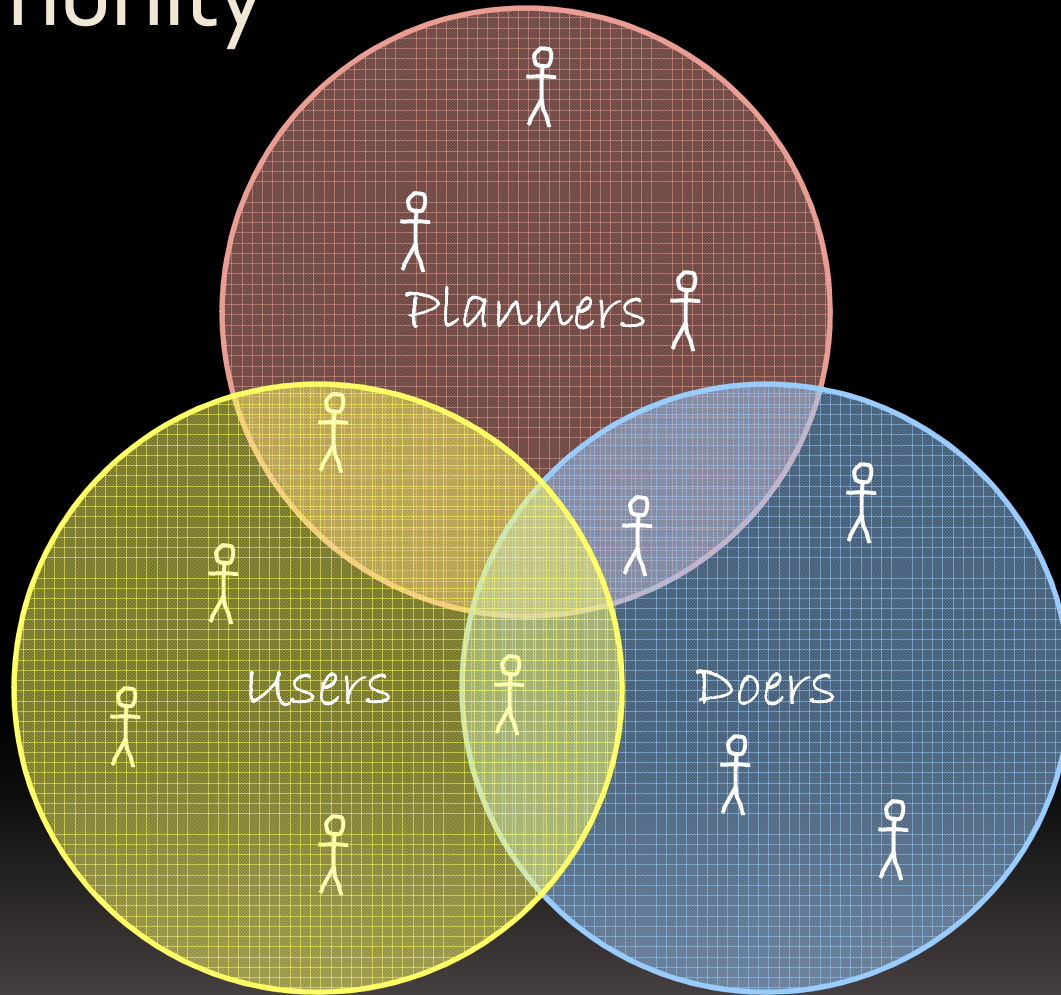

"Without exception, all of my biggest mistakes occurred because I moved too slowly."
--John Chambers, Cisco CEO

Agile Project Management

Community

Iteration Zero

STORY TRAWLING

Logical
Modeling

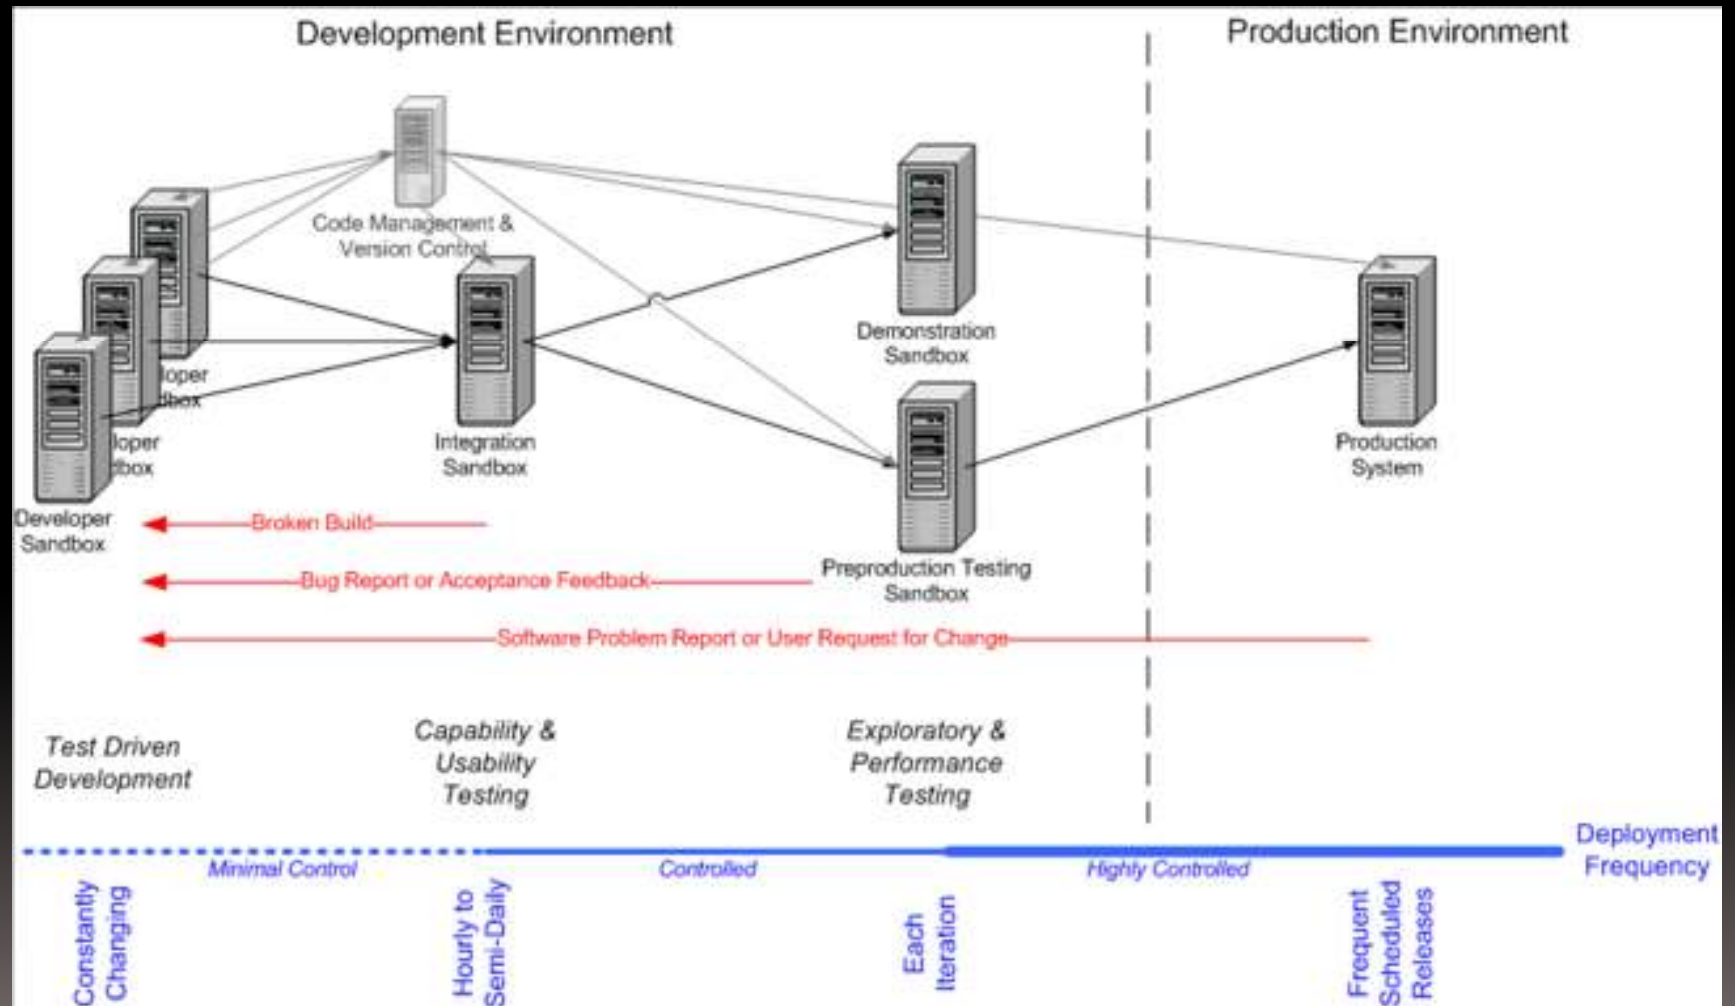

Infrastructure

Process

Source Discovery

Business
Rules

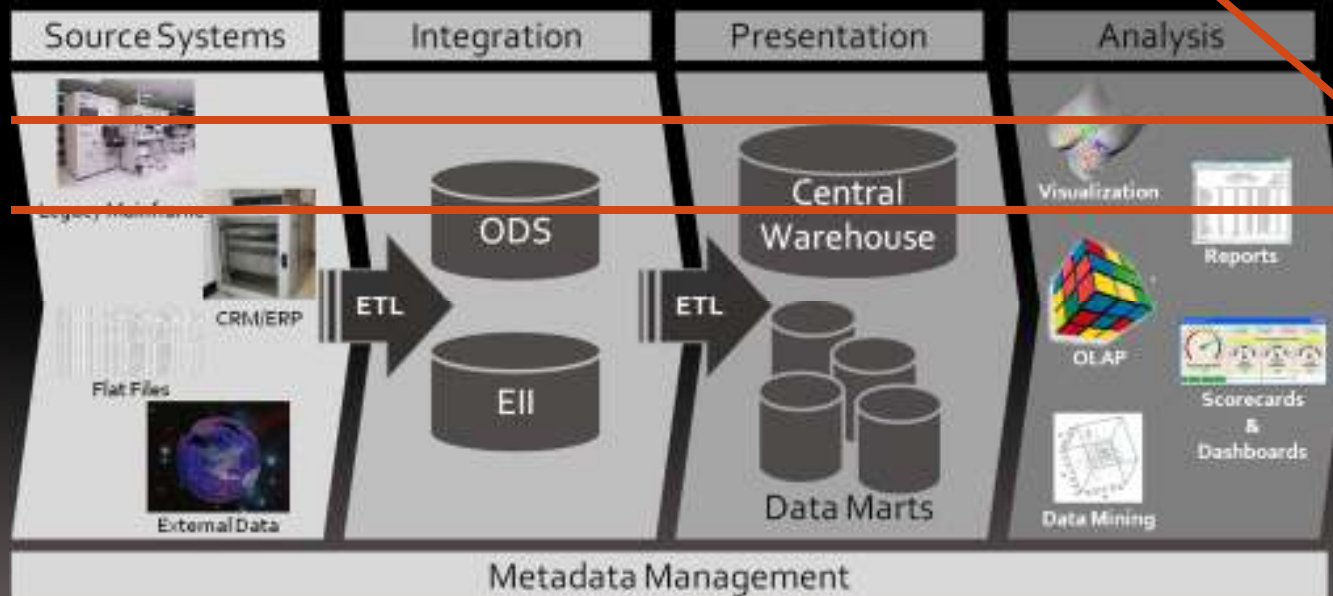

Sandbox Development

Story Driven

As a profitability analyst I need the ability to examine customer profitability by customer type so that I can anticipate future profitability. 400

FEATURE SPIKE

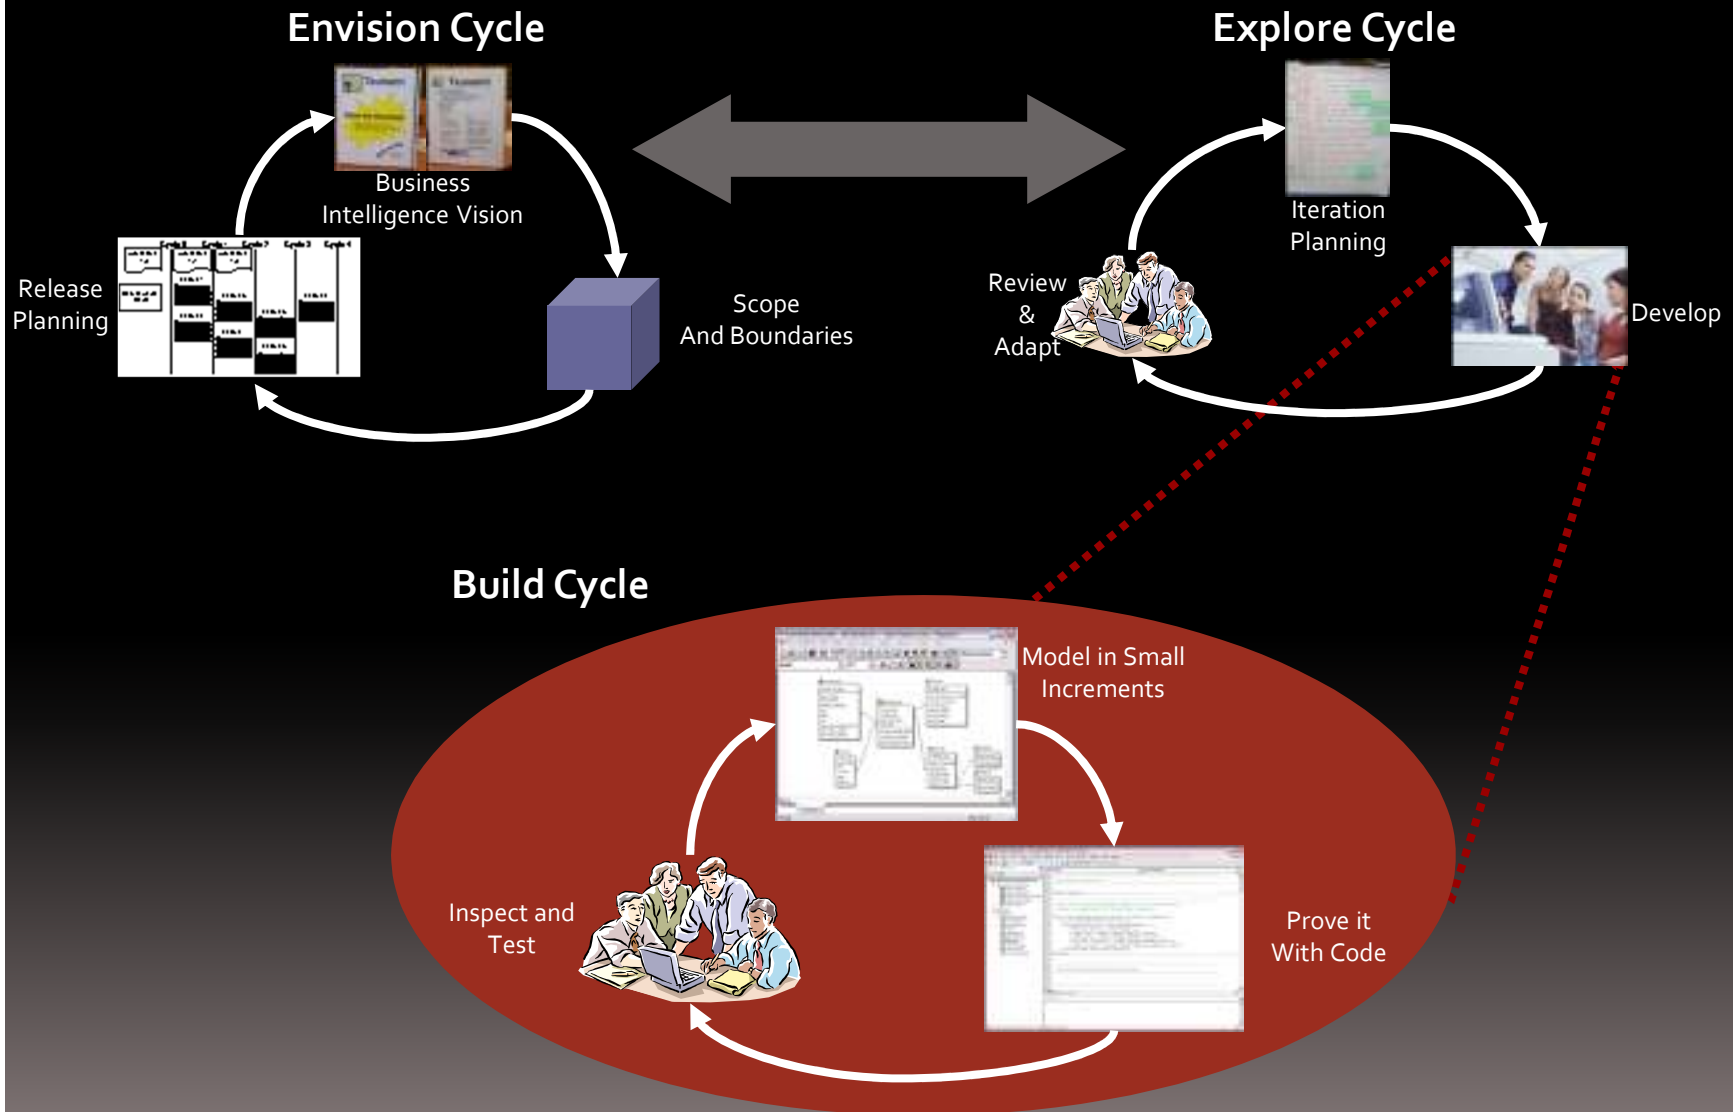

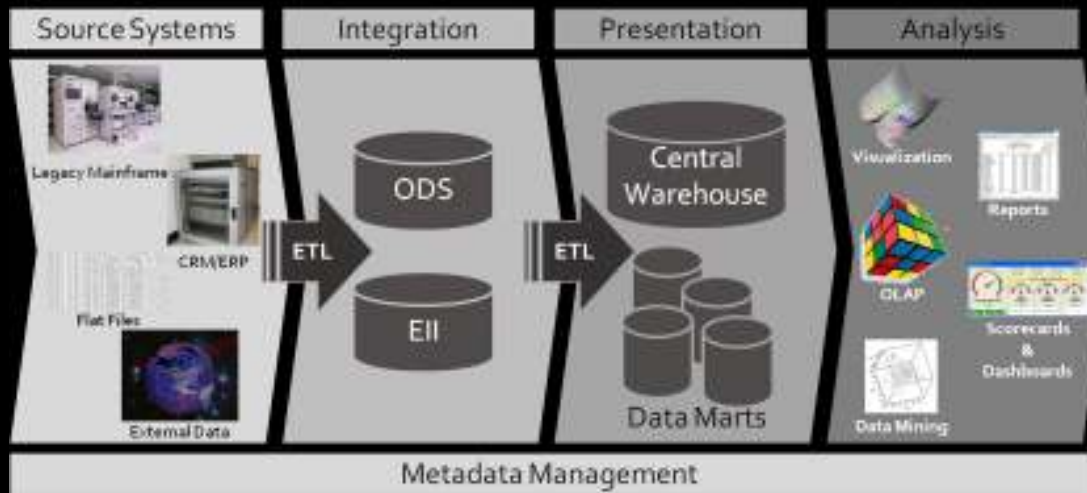

Frequent Customer Collaboration

Evolutionary Maturation

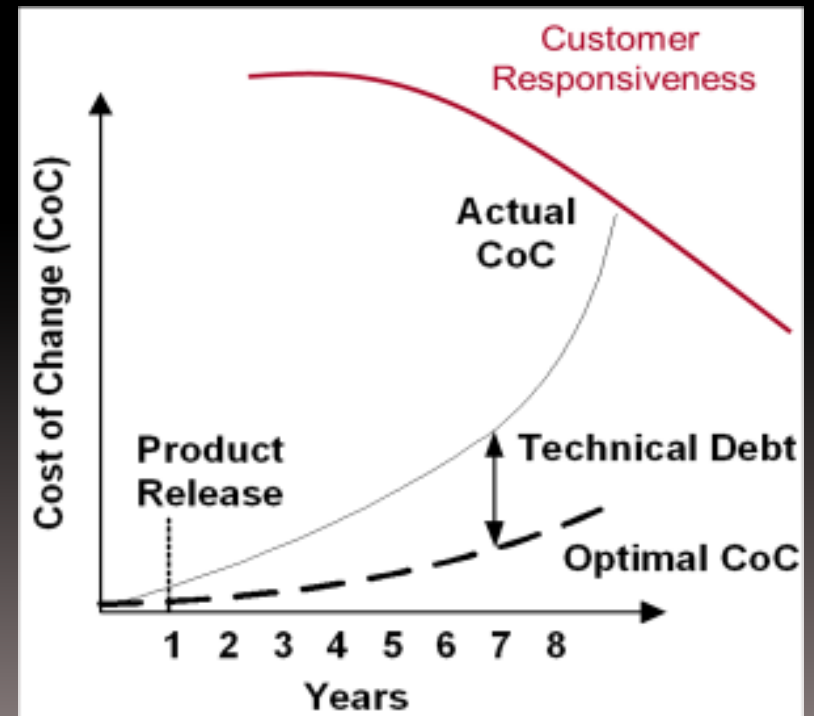

Incremental Modeling

Technical Excellence

Always Deployable

Automate, Automate, Automate

UNIT TESTING

Functional
Testing

Builds

Continuous
Integration

**Test
First**
